	EVANSVILLE COLLEGE OF MEDICAL COLLEGE OF EVANSVILLE.	SPRING & SUMMER ARRANGEMENT.	SALE LELIA IS CICLITE!
			PURITY THE SYSTEM.
			PATCELLTS Compound Extract of COHOSH!
			THE public living in the South and Southwest who know and remember that every medicine prepared manufactured in the Eastern and Northern States has entirely failed to cure diseases in the South and West. The reason is obvious—the difference in climate, diet, and habits of life produce among us diseases widely differing from those common to the East and North. Hence it is morally impossible for any physician, however learned, to manufacture medicine to cure our diseases unless by means of observation among those disorders, he first learn the peculiar idiosyncrasies of the Southwestern constitution.
			The Cochs (Macerate's <i>Racemosus</i>) is a medicinal plant growing in our own climate, of Indian reputation, and admitted by every physician who has examined it, to be surpassed by no medicine as a tonic alterative, and particularly adapted to diseases of the Southwest. It produces a powerful alternative and tonic effect upon the whole human system—stimulating all the secretions to healthy action, and giving tone and energy to the muscular and nervous systems.
			For all diseases arising from an impure state of the blood, or from nervous derangement—diseases of the lungs, liver, kidneys, syphilitic and mercurial diseases—and particularly for all diseases peculiar to females—it will be found superior to any medicine in use.
			PROOF! PROOF!
			DR. HATCHITT: We have examined the receipt for your Compound Extract of Cohosh, and believe you are well advised.
			We have no hesitation in recommending it as equal, if not superior to any preparation of sarsapilla for all diseases in which that article is so generally used.
			John R. WILCOX, M.D., Prof. Materia Medica and Therapeutics, Evansville. L. L. LANCER, M.D., Prof. Theory and Practice Medicine, College. J. M. BRAY, M.D., Prof. Prince and Practice of Surgery. J. S. SWANSON, M.D., Dated Evansville, October 29, 1849.
			DYSPEPSIA CURED!
			DR. HATCHITT: Having been afflicted with Dyspepsia with all its multifarious symptoms—indigestion, pain and uneasiness over the region of the stomach; flatulence and eructation; vomiting of mucus and diphilous, and having used, without benefit, all the usual remedies, together with several bottles of Bull's Sarsaparilla, I was induced to try your Compound Extract of Cohosh. The use of this article has removed me of every trace of disease since which time a space of two months, I have enjoyed excellent health.
			I have sold several dozen bottles of your Cohosh on my Wharf Boat, and it has given perfect satisfaction.
			GENERAL BEN,
			W. Webb, master, will run during the winter a regular packet in the Evansville and Wabash river trade.
